Telecommunications policy

Index to Volume 7

March, June, September and December 1983

Articles – titles

Alternative radio licensing arrangements: a case study of the Multipoint Distribution Service, *Carson E. Agnew*, **7**, 2, 121–36

Cable and satellite TV in the UK and Europe: the emerging legal issues, *Tim Clement-Jones*, **7**, 3, 204–14

The changing nature of the ITU Plenipotentiary, *George A. Codding, Jr.*, **7**, 4, 317–25

The cost of telephone service: an international comparison of rates in major countries, *Bridger M. Mitchell*, **7**, 1, 53–63

Deformalizing the international radio arrangements, *A. M. Rutkowski*, **7**, 4, 309–16

Emerging economic constraints on transborder data flows, *Meheroo Jussawalla and Chee-Wah Cheah*, **7**, 4, 285–96

Impact of deregulation on marketplace diversity in the USA, *Eileen M. Trauth, Denise M. Trauth and John L. Huffman*, **7**, 2, 111–20

The information society in California: social factors influencing its emergence, *Jorge Reina Schement, Leah A. Lievrouw and Herbert S. Dordick*, **7**, 1, 64–72

ITU Conference in Nairobi: confrontation or mutual understanding, *Ruben Näslund*, **7**, 2, 100–10

ITU Plenipotentiary and beyond: a case for serious foreign policy, *Brian Segal*, **7**, 4, 326–34

The monopoly *v* competition debate, *Hans Bergendorff, Torsten Larsson and Ruben Näslund*, **7**, 4, 297–308

The political economy of satellite business, *Gareth Locksley*, **7**, 3, 195–203

Potential for videophones in Japan: a service proposal, *Takuji Watanabe*, **7**, 1, 73–78

Privacy and Canadian telecommunications regulation, *Lewis Auerbach*, **7**, 1, 35–42

The public service potential of videotex and teletext, *Philippe Durand*, **7**, 2, 149–62

Telecommunications in Canada: the regulatory crisis, *Joseph S. Schmidt and Ruth M. Corbin*, **7**, 3, 215–27

Telecommunications in the developing world: investment decision and performance monitoring, *Robert J. Saunders*, **7**, 4, 277–84

Telecommunications planning and the power of expertise, *James Miller*, **7**, 2, 137–48

Telecommunications policy and the pleasure principle, *Carolyn Marvin*, **7**, 1, 43–52

Social problems of information societies: the US and Japanese experiences, *Jerry L. Salvaggio*, **7**, 3, 228–42

US TV networks' response to new technology, *Barry R. Litman*, **7**, 2, 163–77

Value conflicts in computing development: developed and developing countries, *Rob Kling*, **7**, 1, 12–43
